

The Simple Solution

FAST TRACK
PLUS™

Unlocking the potential of Fast Track Plus™

There's no doubt of the value of Fast Track Plus™ data as supplemental auto and homeowner rating information. Trouble is, if you're forced to sort through the data in its original form, it can be a drain on staff time and system resources. Fast Track Plus™ is the simple, efficient answer.

Fast Track Plus™ allows you to monitor emerging claim experience and represents the consolidated experience of a significant sample of the industry. Each quarter, you receive customized data by state, region, or on a countrywide basis online in an Excel format. Fast Track Plus™ provides automated calculations on a variety of loss trends. You also receive the underlying data, with no calculations applied, in a separate data tab that allows you to develop your own automated calculations.

Indispensable Data

With Fast Track Plus™ you can stay on top of critical industry intelligence by receiving homeowner and auto claim experience on a quarterly basis, plus one-, two-, three-, and four-year trends.

And that's just the beginning. You'll receive information on:

- Earned premium
- Earned exposure
- Incurred loss
- Paid loss
- Claim frequency
- Claim cost
- Pure premium
- Loss ratio
- Comparisons of individual state experience to national figures
- And more!

Additionally, Fast Track Plus™ includes exponential and straight line of best fit projections based on multiple time frames for claim cost, claim frequency, and pure premium data as well as added access to aggregated input data for downloading into internal spread sheets with goodness-of-fit metrics and the fitted lines of best fit.

Underscoring the value of Fast Track Plus™ is the quarterly analysis and in-depth examination of emerging trends and the reasons driving them – all provided by Pinnacle Actuarial Resources, Inc.

Your next simple step

To purchase Fast Track Plus™, contact iss.support@apci.org. As soon as you complete your purchase, you'll receive your Fast Track Plus™ every quarter as the data becomes available.

Fast Track Plus™ is produced by the Independent Statistical Service, a national statistical agent serving over 450 companies reporting nearly \$200 billion in annual reported premium.

And enhanced by Pinnacle Actuarial Resources, Inc., an independent actuarial and management consulting firm and a recognized leader in automobile and homeowners pricing, underwriting, and marketing.
